*The right choice for your  
telecommunications needs*

---

## ABOUT COMCHOICE

ComChoice began operations in 1998 when a group of telecommunications professionals joined forces to offer a competitive alternative for selecting, installing and maintaining world-class communications products and services.

Customer satisfaction is a top priority. The ComChoice team is committed to delivering customized communications solutions designed specifically to meet your unique business needs.

By partnering with many of the world's leading manufacturers, ComChoice is able to offer savings and convenience while incorporating the latest technology. Many of the Southeast's largest organizations selected us as their provider of choice for integrated state-of-the-art communication systems featuring products from:

- ▶ ROLM/Siemens
- ▶ Mitel
- ▶ Nortel Networks
- ▶ Forum Communications
- ▶ Spectralink
- ▶ Polycom
- ▶ Liebert

ComChoice also works closely with NewSouth Communications, a major Southeastern service provider. Through this strategic partnership, we can offer you measurable cost savings.
